CUBAN WAS AFTER A MILLION.

Detectors Say Menendez Would Have Got It With Enough Rope.

Baldern Menendez, the Cuban who has been passing as Manuel Alvarez & Co. of Havana and passing drafts for large amounts of money, was a difficult prisoner in the Jefferson Market police court yesterday. He appeared bored while awaiting arraignment on the complaint of the proprietor of the Martineque Hotel to the effect that he had forged a draft for \$25,000 while in the hotel and after depositing the same with the Savoy Trust Company tried to procure \$1,000 from the clerk on a check drawn to the alleged account.

This was the only complaint taken against him, although representatives of the United States Film Dealers and Importers, to whom the Cuban had given an order for \$1,000 worth of film, and of the Savoy Trust Company were in court apparently willing to make charges against him. Assistant District Attorney O'Brien asked that the case be set for further hearing on Monday so that the detectives could secure additional evidence, and this was finally agreed to. Magistrate Steinert held the prisoner in \$1,000 bail.

"He was out on a gigantic scheme and he was the proper man to work it," said Manager R. C. Schindler of the Burns & McDonnell Detective Agency yesterday. "That fellow was out to gather \$1,000,000 and he would have succeeded if given sufficient rope. He had got rid of five drafts and exhibited others which he destroyed when he realized he was to be arrested."

"He was out on a gigantic scheme and he was the proper man to work it," said Manager R. C. Schindler of the Burns & McDonnell Detective Agency yesterday. "That fellow was out to gather \$1,000,000 and he would have succeeded if given sufficient rope. He had got rid of five drafts and exhibited others which he destroyed when he realized he was to be arrested."

SEND MONEY AND GET SHOES

TWO PAIRS, ANY SIZE AT ALL, FOR ONLY \$1.50.

Post Office Authorities Looking into the Advertisement of the Standard Produce Co. of 602 East Sixteenth Street Ignatz Frankel is the Company.

The Post Office Department, which is interested in all kinds of things involving the use of the mails, would like to know how the Standard Produce Company can make and sell two pairs of shoes for \$1.50 at the present price of labor and leather. The attention of the Department was called yesterday to an advertising prospectus issued by the concern, and Chief Inspector W. W. Davidson will endeavor to see if the mails have been used in promoting what appears to be an excellent money making scheme.

The Standard Produce Company sent this circular out to be inserted in newspapers. SENATIONAL OFFER. What we offer to you has never been offered by any firm up to the present time. ACCEPT THE HAGUE VERDICT.

Both Britain and the U. S. Foreign Resolved to Accept.

Special Cable Despatch to THE SUN. THE HAGUE, Sept. 16.—The representatives of Great Britain and the United States in the matter of the Newfoundland fisheries award have decided to accept the result without question. Each country had made a reservation that a demand for a revision of the award of the international tribunal could be made within five days after its promulgation. Both countries have now decided not to question the findings of the court and to accept the award in all its details as binding on each Government.

Sir Charles Fitzpatrick, the Chief Justice of Canada, who was the British representative on the tribunal, left for home yesterday. WASHINGTON, Sept. 16.—Legal officers of the State Department have completed a careful study of the Newfoundland fisheries decision handed down by the Hague tribunal last Wednesday. Their conclusion was that the "general result of the decision is a substantial victory for the contentions of the United States." The Department has prepared an unofficial statement of the effect of the decision, which was given out to-night. Discussing question No. 1, which in terms was decided in favor of Great Britain, the statement says:

"Upon this question the tribunal appears to have held that while the Government of Great Britain had an inherent power of its sovereignty the right to make without the consent of the United States regulations in the form of municipal laws, ordinances or rules, such regulations to be enacted either by Great Britain, Canada or Newfoundland, yet the exercise of that right by Great Britain was limited in that such regulations must be made bona fide and must be appropriate to the protection of the fisheries and preservation of such fisheries or desirable or necessary on grounds of public order and morals without unnecessarily interfering with the fishery itself, and in both cases equitable and fair as between local American fishermen and not so framed as to give unfairly an advantage to the former over the latter class."

On question 5, which was also decided in favor of Great Britain, the statement said: "Inasmuch as the only point before the tribunal for decision in this matter was the question of the extent of the renunciation of the right to fish within the bays, etc., on the non-treaty coast, it is evident that the effect of the decision of the tribunal as thus reported must be confined to the precise question before it, and that therefore it cannot be regarded as laying down any general rule regarding the determination of the extent of bays in other waters or regarding the extent of bays in those waters except as to the fishing rights renounced by the United States."

"It would, moreover, appear that as to this question the tribunal did not adopt the extreme contentions of either Great Britain or the United States, but on the contrary gave a compromise decision, which closes to American fishermen on non-treaty coasts all bays ten miles or less between headlands and opens to them all bays whose mouths are more than ten miles between headlands."

ST. PAUL, Minn., Sept. 16. Hopefully divided among themselves, the members of the Ballinger-Pinchot Congressional investigating committee have adjourned, and three separate reports will be presented to Congress. Two of the reports will recommend the dismissal of Ballinger from President Taft's Cabinet. They are couched in different language, but they mean the same thing. One report has been drafted by the Democratic members of the committee, and another by the insurgent Republican Congressman Madison of Kansas.

What the third report will contain will be decided next Tuesday in Chicago, when the chairman, Senator Nelson, and his disgruntled followers will meet at the Auditorium Hotel. What their report will be, in view of the extended publicity given the affair by the Democrats and the jangle insurgent, is a matter of conjecture. The Democrats to-day declared that would not attend the Chicago meeting, as it was called by Senator Nelson without authority.

ST. PAUL, Minn., Sept. 16.—Democratic members of the Ballinger committee are preparing to-day to leave the Twin City. They are in a state of confusion, and the committee's meeting is over and its work accomplished. In Chicago next week they will go through the form of holding another meeting and making public another report. What the nature of this report will be is an interesting subject for speculation. Should every member of the committee get together on a report, it is pretty likely to be the Scotch verdict of "not proven."
